

OSWEGO COUNTY PUBLIC HEALTH ENGINEER

The Oswego County Health Department has an immediate opening for a Public Health Engineer responsible for the planning, administration, and performance of one or more phases of the environmental health programs of the Oswego County Department of Health Services. In addition, the Public Health Engineer will advise public officials, technical professionals and individuals on problems requiring professional public health engineering expertise, including measures for improvement and compliance with legal requirements, assisting in the promotion of public health through application of New York State engineering practices, assisting in the enforcement of the provisions of local and State health matters and investigations of related conditions and problems.

Qualifications: Possession of a bachelor's degree in engineering or a current valid license and registration to practice as a professional engineer in New York State.

Permanent appointment to this position requires successful completion of the civil service examination. Applicants must also have a valid New York State driving license.

Salary: \$61,330 to \$71,302 per year plus competitive benefits package including health, dental and life insurance, NYS Retirement, and Public Service Loan Forgiveness Program. Salary negotiable to be commensurate with experience and qualifications.

To Apply: Review of applications will begin immediately and continue until position is filled. Please visit our website to complete an online application or submit a paper application to the address below.
