

OSWEGO COUNTY DIRECTOR OF SOLID WASTE PROGRAMS

Oswego County has an immediate opening for a professional with the skills and experience to manage a comprehensive solid waste management program. This is a department-head position responsible for the supervision of solid waste management activities at the County Energy Recovery Facility, landfill and transfer stations, and a comprehensive recycling program. The position is responsible for providing County residents, businesses, industries, contractors and developers access to facilities for the safe disposal of solid waste. This is highly technical work requiring oversight of all aspects of planning, managing, regulating and directing a comprehensive solid waste management program. The incumbent reports to the County Administrator and is responsive to the direction of a 25-member County Legislature.

Qualifications: Master's degree in civil or mechanical engineering, or closely related field and 3-5 years of professional administrative experience involving planning, directing, and coordinating activities and staff in a solid waste program or power plant; OR a bachelor's degree as noted above and 5-7 years of experience.

Salary: \$88,507 - \$110,654 plus competitive benefit package.

To Apply: Application review will begin immediately and continue until the position is filled. Please visit our website to complete an online application or submit a paper application to the address below. Please include a letter of interest and resume with your application.
