

OSWEGO COUNTY ASSISTANT PUBLIC HEALTH ENGINEER

The Oswego County Health Department has an immediate opening for an Assistant Public Health Engineer responsible for assisting the Public Health Engineer in the planning, administration, and performance of one or more environmental health programs. In addition, the Assistant Public Health Engineer will assist in advising public officials or individuals on problems requiring professional public health engineering expertise, including measures necessary for compliance with New York State Sanitary Code requirements, assisting in the promotion of public health through application of environmental health practices, assisting in enforcement of the provisions of the State Sanitary Code and investigations of related conditions and problems.

Qualifications: Bachelor's degree in engineering from a regionally accredited or NYS registered college or university or a current valid license and registration to practice as a professional engineer in New York State.

Permanent appointment to this position requires successful completion of the civil service examination.

Salary Range: \$46,159 to \$53,373 per year plus competitive benefits package including health, and life insurance, NYS Retirement, and Public Service Loan Forgiveness Program. Salary negotiable to be commensurate with experience and qualifications.

To Apply: Review of applications will begin immediately and continue until position is filled. Please visit our website to complete an online application or submit a paper application to the address below.
