

OSWEGO COUNTY STAFF ENGINEER

Oswego County has an immediate opening for an engineer to provide technical assistance for all aspects of its Waste-to-Energy and Solid Waste Management Systems. Responsibilities will include ensuring compliance with and preparing environmental permits (air-water-solid waste). The Staff Engineer also provides engineering support for electrical and mechanical systems at the Energy Recovery Facility, Landfill and Transfer Stations including preparing bids, specifications, design plans and cost estimates for engineering projects.

Qualifications: Bachelor's degree in mechanical or electrical engineering or closely related field; Or associate's degree in mechanical or electrical technology and two years of experience in the installation, repair and maintenance of mechanical, electrical, hydraulic and high pressure steam equipment and related controls.

Permanent appointment to this position requires successful completion of the civil service examination.

Salary: \$54,796 to \$72,619 per year plus competitive benefits package.

To Apply: Review of applications will begin immediately and continue until position is filled. Please visit our website to complete an online application or submit a paper application to the address below.
