SCOPE OF THE WRITTEN EXAM: A written test designed to evaluate knowledge, skills and/or abilities in the following areas:

Preparing written material: These questions test for the ability to present information clearly and accurately, and to organize paragraphs logically and comprehensibly. For some questions, you will be given information in two or three sentences followed by four restatements of the information. You must then choose the best version. For other questions, you will be given paragraphs with their sentences out of order. You must then choose, from four suggestions, the best order for the sentences.

Understanding and interpreting written material: These questions test for the ability to understand and interpret written material. You will be presented with brief reading passages and will be asked questions about the passages. You should base your answers to the questions **only** on what is presented in the passages and **not** on what you may happen to know about the topic.

Fiscal management: These questions test for a general knowledge of the financial environment within which governments must operate. Questions may deal with, but are not necessarily limited to, such matters as capital and operating budgeting; general and governmental accounting; cost analysis; financial analysis; cash management; internal controls; general and governmental purchasing; storeskeeping and inventory control.

School Fiscal Management: These questions test for a general knowledge of financial matters as they relate to school business offices. The questions may include, but not necessarily be limited to, such matters as capital and operating budgeting; general and governmental accounting; cost analysis; internal controls; cash management; investment and debt management; insurance and risk management; financial reporting; general and governmental purchasing; transportation; food services; and facilities management.

Understanding and interpreting tabular material: These questions test your ability to understand, analyze, and use the internal logic of data presented in tabular form. You may be asked to perform tasks such as completing tables, drawing conclusions from them, analyzing data trends or interrelationships, and revising or combining data sets. The concepts of rate, ratio, and proportion are tested. Mathematical operations are simple, and computational speed is not a major factor in the test. **You should bring with you a hand-held battery- or solar-powered calculator for use on this test.** You will **not** be permitted to use the **calculator** function of your **cell phone**.

Evaluating conclusions in light of known facts: These questions will consist of a set of facts and a conclusion. You must decide if the conclusion is proved by the facts, disproved by the facts or if the facts are not sufficient to prove or disprove the conclusion. The questions will not be specific to a particular field.

Administrative supervision: These questions test for knowledge of the principles and practices involved in directing the activities of a large subordinate staff, including subordinate supervisors. Questions relate to the personal interactions between an upper level supervisor and their subordinate supervisors in the accomplishment of objectives. These questions cover such areas as assigning work to and coordinating the activities of several units, establishing and guiding staff development programs, evaluating the performance of subordinate supervisors, and maintaining relationships with other organizational sections.

Use of a calculator is **RECOMMENDED** for this exam.
